Allowable Subject Matter

Claims 1-10, 13, 15-18, 20-27 and 31-34 allowed.

The following is a statement of reasons for the indication of allowable subject matter:

The closest prior art of record (Olivier et al FR 2841124) includes hook shaped trailing end walls on the teeth rather than trail ends generally orthogonal to the curved surfaces, the upper and lower surfaces are not substantially smooth along the leading end portion and trailing end portion as claimed and since the implant of Olivier et al is curved, the proximal end wall is not opposite a leading nose end as claimed.
